NGUYEN HUU AN

Business Analyst Intern

Ho Chi Minh City | 0357 840 959 | nghuuan2504@gmail.com | linkedin.com/in/nghuuan25
Portfolio: https://claude.ai/artifact/N4shyMURsDh1XVNiSkBp7y

SUMMARY

Final-year Management Information Systems student (GPA 3.1/4.0) seeking a Business Analyst internship. Documented requirements, use cases, an ERD and wireframes for a 3-role student support system and tested it to 45/45 test cases. Defined KPIs for 3 stakeholder groups in a Power BI dashboard (35 DAX measures). 4 years in sales operations (50–70 orders/day for Circle K, Co.opmart). Accounting and ERP fundamentals from coursework. Available from October 2026, full-time or part-time, in Ho Chi Minh City or remote.

EDUCATION

Bachelor of Management Information Systems — Expected 2027

University of Labour and Social Affairs (Campus II), Ho Chi Minh City

GPA 3.1/4.0 · Final year · Coursework: Database Management Systems (A+), Management Information Systems (A), Systems Analysis and Design, Accounting Information Systems, Principles of Accounting

SKILLS

Business Analysis: Requirements gathering, use cases, ERD, wireframing, process mapping, test cases, Agile/Scrum
Data & Technical: Excel (PivotTable, VLOOKUP/XLOOKUP, Power Query), SQL (MySQL, SQL Server), Power BI, Python (basic)
Business & Soft Skills: Accounting and ERP basics (academic), analytical thinking, teamwork, communication
Tools: draw.io, Mermaid, Figma (basic), VS Code, MISA CRM, Word, PowerPoint; AI tools: Claude, ChatGPT, Gemini
Languages: English (TOEIC 650 practice test, targeting 700), Vietnamese (native)

PROJECTS

Student Support Request System

Individual project · PHP Programming course · 2026 · PHP 8, MySQL, PHPMailer, Mermaid

- Analyzed the student-support request process for 3 user roles (student, support staff, admin) and documented functional and non-functional requirements, use case specifications, an ERD and wireframes.
- Designed a 5-table MySQL database with foreign keys, transactions and a status-change audit log, so every request can be traced from submission to closure.
- Built the full workflow: request submission with attachments, 3-stage status tracking, staff responses with automatic email alerts, 1–5 star satisfaction rating, and Excel/PDF reports that keep the active filters.
- Wrote and ran 45 test cases in 6 groups, including SQL injection, XSS, CSRF and access-control checks; found and fixed 2 real bugs to reach 45/45 passed.

UEH Admissions & Training Analytics Dashboard

Team of 3 · MIS Practice course · 2026 · Power BI, DAX, Excel

- Built the KPI framework answering the team's 6 management questions for 3 audiences (leadership, admissions office, academic affairs), adapting retail metrics such as orders and profit to fill rate, applicants per seat and employment rate.
- Designed the star-schema model (4 dimension and 6 fact tables, 11 relationships, 2,184 records for 2021–2025) and wrote 35 DAX measures.
- Built 3 interactive dashboards with drill-through, custom tooltips and bookmarks; the team turned the findings into 5 data-backed recommendations.

WORK EXPERIENCE

Sales Admin — 2022 – 2023

Quang Huy Trading Co., Ltd

- Processed 50–70 sales orders per day and maintained customer, order and contract records in MISA CRM.
- Handled order administration for key accounts: the Circle K chain in HCMC (4 SKUs), Co.opmart in HCMC and Mekong Delta provinces (about 12 SKUs), and smaller distributors (3 SKUs).
- Built a weekly Excel report of daily revenue and receivables from MISA exports for the head of department.
- Kept product information consistent across 4 sales channels: website, Shopee, Facebook and TikTok.

Sales Staff — 2019 – 2022

C.P. Vietnam (2019 – 2021) · Thao Tien Co., Ltd (2021 – 2022)

- Generated about VND 500 million in monthly sales by identifying needs and recommending suitable products.
